

The background of the image is a photograph of a power transmission system. It features several tall, lattice-structured electricity pylons. Numerous power lines are suspended from these pylons, creating a complex web of lines that radiate across the frame. The sky is a warm, golden-yellow color, suggesting either a sunrise or a sunset. In the lower right foreground, the dark silhouette of a tree is visible. The overall atmosphere is industrial and suggests themes of energy and infrastructure.

## OUR COMPANY

**KHOZAlity**, founded in Johannesburg in 2015, is a subsidiary and registered trademark of Khozality Holdings (Pty) Ltd. KHOZAlity is a rapidly growing tailored engineering solutions firm, with a special focus on solving complex problems. Our specialist team is equipped with skills to do thorough site assessments, information analysis, solution design, product specifications, construction, project management, and operations & maintenance. Our solutions are inspired by our drive toward a zero-carbon future.

We are a youth-led, 100% black-owned Engineering and Construction Company catering commercial and industrial market segments. Our approach to projects is to ensure simplicity, high efficiency and quality. Our growing product and services portfolio enables us to provide our customers with a complete integrated solution, which includes high quality designs, quickest installation times, real-time remote monitoring and comprehensive operation and maintenance services.

At KHOZAlity, we have a vision to continuously contribute to the growing movement to power the world with sustainable and clean energy solutions, thus preserving the environment we live with.

## WHAT WE DO

### ELECTRICAL AND MECHANICAL ENGINEERING

- Complex Technical Design Development
- Procurement and supply of equipment
- Construction and Implementation
- Operation, maintenance and optimisation
- Training and awareness programs

### INDEPENDENT ENERGY CONSULTANCY

- Feasibility studies
- Renewable Energy Resource Assessment
- Assessment and Recommendations on integration of low- and zero-carbon technologies.
- Training and awareness programs

### ENERGY PROJECTS AND CONTRACTS MANAGEMENT

- Technical Design Development
- Construction Supervision
- Risk and opportunity management
- Managing project schedule
- Managing project finance
- Quality Control and Management

## ENERGY EFFICIENCY STRATEGY AND ADVISORY

- Site surveys
- Energy efficiency identification
- Energy modelling
- Evaluations
- Detailed Technical designs
- Implementation
- Renewable energy integration
- Energy storage solutions and feasibility studies

## METERING & DATA SERVICES

- Data collection and management
- Onsite and remote monitoring
- Data loggers
- Dashboard displays
- Reporting
- Data management tools and optimisations

## WHY KHOZALITY

KHOZAlity is committed to supporting entrepreneurship in Africa, contributing to their growth and sustainability. Whether partnering with start-up specialists to capacitate them or funding their next step – such as a new website, branding and implementing new systems.

### WHY?

South Africa's small business failure rate is almost 80%, the failure rate in the rest of the continent is even higher. The lack of support and skills are the leading reason for such failure.

### HOW?

With every project completed, 2% of our profit is donated to a fund called KHOZAlity Fund, which directly aids the needs of entrepreneurs in Partnership with Khoro, WIBC and Trevor Huddleston Memorial Centre. To date, year 2023, we have mentored and supported over 150 entrepreneurs.

## OUR AIM

KHOZAlity has a fun task at hand to work with entrepreneurs and partners to celebrate successful entrepreneurship and help develop a culture of entrepreneurship in the continent. Giving Back Time is of the essence, and start-ups are the life blood of any economy.
